

Gulf Mould Oil T

Concrete mould oil

Product Description

Gulf Mould Oil T is light coloured, highly effective, ready-to-use concrete mould oil specially formulated to ensure clean concrete release from wood, metal and other composite forms. It contains a special mould releasing agent to prevent sticking of concrete on moulds and impart superior surface finish. It also minimises surface irregularities, reduces voids and provides corrosion protection for metal forms during brief period of outdoor storage. It is recommended for use with a wide variety of concrete materials used in the construction and precast industries and is applied to the mould by brushing or spraying as a thin layer.

Features & Benefits

- Prevents sticking of concrete on moulds
- Imparts superior surface finish
- Protects metal forms against corrosion for a brief period of outdoor storage
- Eliminates the need for brushing or special cleaning procedures before reuse of forms
- Stable in storage and will not become rancid
- Does not impart colour to the concrete mould

Applications

- Moulding of wide variety of concrete materials used in the construction and precast industries
- Manufacture of precast concrete panels, structural units and prestressed bridge beams
- All types of forms where use of mineral oil based release agent is recommended

Note: For best results, it should be applied on clean and dirt-free surfaces. Over spills must be removed.
