VALVOLINE, A DIVISION OF ASHLAND INC.

MaxLife® Transmission Stop Leak

MaxLife® Transmission Stop Leak is formulated with advanced seal additive technology to help stop leaks in transmissions with over 75,000 miles. **MaxLife® Transmission Stop Leak** is formulated with special seal conditioners that help restore old seals and protect them from hardening. It is compatible with automatic transmissions in General Motors, Ford, and light duty trucks. It can also be used in many imports such as Honda, Hyundai/Kia, Nissan, Subaru, and Toyota.

MaxLife® Transmission Stop Leak Advantages:

- **Helps stop transmission leaks**
- **Reconditions old seals**
- **Protects transmission seals from hardening**
- **Compatible with GM, Ford, and many import vehicles**

Usage:

Add 1 quart of MaxLife® Transmission Stop Leak for every 10 quarts of Automatic Transmission Fluid used.

Test	Typical Property
Viscosity @ 100°C, cSt	7.9
Viscosity @ 40°C, cSt	39.2
Viscosity Index	178
Specific Gravity @ 60°F	0.86
Brookfield Viscosity @ -40°C, cP	17,500
Pour Point, °C (max)	-39
